Pre-Filing Bankruptcy Counseling

No one will be turned away for inability to pay. However, all fees collected are necessary to be able to provide this service. Counseling clients for their family size, who have an annual gross income below 150% of current Federal Poverty Guidelines, are presumed to be entitled to a fee waiver. HCCI will initiate the counseling session in the same manner whether a fee is paid or not. If HCCI can demonstrate that the individual has the ability to pay (based on income information the individual submits), HCCI may charge a reduced fee of \$25. Additionally, there may be funding sources that cover counseling fees for specific groups, such as military personnel.
